INQUADRAMENTO TERRITORIALE

The map, titled "PERCORSI DI COPERTURA URBANA", illustrates a residential urban layout with a network of streets and building footprints. A red dashed line delineates a primary urban coverage path, weaving through the central and eastern portions of the settlement. A blue line with directional arrows represents a water management or drainage network, originating in the upper left and extending towards the lower right. A green line with arrows indicates a secondary service path, running parallel to the water network in the lower right quadrant. Key infrastructure elements are marked with blue letters: 'S' for a school, 'M' for a municipal building, 'C' for a church, 'A' for a public square, 'P' for a parking area, 'CS' for a sports facility, 'W' for a waste management area, 'SIM' for a social infrastructure, and 'U.D.' for a utility distribution area. The map also shows a river or canal on the left side and a railway line at the bottom. A north arrow is located in the top left corner, and a scale bar at the bottom left indicates distances up to 1000 meters.
